## MOOTHART O—McKINLEY O.

Neither Side Scores in One of the Best and Cleanest Games Ever Seen in Farmington.

The Moothart Business College team and the McKinley High School of St. Louis played a tie game at Woodland Park last Saturday in one of the best and cleanest games of football seen here for several years. The forward pass was used several times by McKinley, but with poor success. Moothart used the back's exclusively, most of their gains being made on end plays by Pipkin and Benman. In the first half McKinley, by end runs and forward passes, forced the ball to Moothart's ten yard line and were there held for downs. Benman kicked out of danger and the teams saw-sawed up and down the field for the remainder of the half.

In the second half Moothart carried the ball down the field by straight football and were on McKinley's ten yard line when the game ended. Benman was the best ground gainer, the "Flying Dutchman" making from five to ten yards at every jump. Pipkin also made good gains on end runs and end backs.

The showing of the Moothart team was remarkable when it is taken into consideration that their practice has been entirely at night and that the game Saturday was the first scrimmage work of the year. Captain Pipkin is well satisfied and the team is getting some good practice for the next game, which will be Tuesday, Oct. 30, with the St. Louis College of Physicians and Surgeons. The line-up.

The agricultural meeting at Bismarck on Friday and Saturday, where many subjects relating to the farm were discussed by experts, and the lecture in Farmington Friday afternoon on poultry were largely attended and enjoyed. The purpose of the poultry exhibit was for the purpose of encouraging poultry raising in Southeast Missouri, and a good deal of literature bearing on the subject was distributed.

Poultry raising on the farm, if systematically conducted, can be made one of the most profitable resources of the farm.

## County Teacher's Association.

The St. Francois County Teacher's Association will be held in the Farmington Opera House Nov. 1, 2 and 3, section 2950 of the Missouri school law makes it the duty of every teacher in the county to attend this meeting. Boards of education should see that their teachers comply with this section. No warrants should be issued for this week's work until a certificate of attendance, properly signed by the commissioner, is filed with the district clerk. If the teacher teaches during the first three days of the week and attends the association during the last three he is entitled to full pay for the week. A few clerks and boards have been careless in regard to the requirements of this section heretofore, but it is to be hoped that no district will be so indifferent in regard to school matters as not to have its teachers comply with this provision of the law this year.

A splendid program has been provided for this yearly gathering of the teachers, and it is expected all teachers attending will be greatly benefited. School boards, clerks, and all friends of education are quite welcome to all sessions of the meeting, and it is expected that a large number will be present. Boards have no better place to see what sort of notions the teachers they are employing have concerning modern educational problems. Let's make this meeting a record breaker besides having every teacher of the county enrolled lets have at least 90 per cent. of the members of the school boards and district clerks.

Boarding places at reasonable rates have been provided for all teachers who may attend. Any teacher desiring board and lodging will please call at the headquarters of the reception committee, in the Opera House. The committee will take great pleasure in showing a list of all the available places. After the selection is made a guide will show the applicant to his appointment. Don't forget the date and place, Nov. 1, 2 and 3, in the Farmington Opera House. If you want board, apply to the committee in the Opera House.

Respectfully,  
J. W. DUNLAP,  
Member County Board of Education.

Our football team played a very interesting and exciting game on last Saturday with the McKinley High School of St. Louis, the score resulting in a "tie," neither side being able to cross the goal line.
